Hi Anthony,

Please find the narrative below and our logos attached. Please let me know if there is anything else you need from us.

Narrative:

Established in 1994 in Washington, D.C., the National Hispanic Medical Association (NHMA) is a non-profit association representing the interests of 50,000 licensed Hispanic physicians in the United States.

The vision of the organization is to be the national leader in improving the health of Hispanic populations.

The mission of the organization is to empower Hispanic physicians to lead efforts to improve the health of Hispanic and other underserved populations in collaboration with Hispanic state medical societies, residents, medical students, and other public and private sector partners.

On the Stronger2 Project, NHMA plans to coordinate virtual events and support in-person events to provide continuing medical education credits to diverse sets of health professionals to enhance their understanding of Health Literacy for the Hispanic community.

All the best,
Vito
